L'Antic Colonial protects all of its stone with BIOPROT, which is a waterproofing and oil repellent product that improves the stain-resistant properties of natural stone. The Bioprot process also significantly reduces bacteria growth on the surface of the natural stone.

It is a liquid treatment which, once applied, helps to reduce deposits of microorganisms on the surface of materials and prevents the appearance of bad smells. It is a non-toxic liquid that creates a barrier, preventing the spread of bacteria on surfaces.

This effect is achieved because of its silver ion-doped nano clay composition. The silver particles anchored to the nanoclays are spread across the surface of the protected material, in a controlled manner. This mechanism ensures an even and long-lasting antimicrobial effect.

This protection is not strictly a seal, as it does not create a film as in the image on the right. The protection binds with the substrate, as in the image on the left; it does not form a film or block the pores.

A hydrophobic and oleophobic surface is achieved, as can be observed with the surface tension of a drop of water on the surface, as shown in the image below.

L'Antic Colonial protege todas sus piedras con BIOPROT, que es una impermeabilización hidro y óleo repelente que mejora las características propias de la piedra natural en cuanto a resistencia frente a las manchas. Además, el proceso BIOPROT reduce radicalmente la aparición de bacterias sobre la superficie de la piedra natural.

Se trata de un tratamiento líquido que una vez aplicado ayuda a reducir el depósito de microorganismos en la superficie de los materiales, e inhiben la aparición de malos olores. Se trata de un líquido no tóxico, que crea una barrera que previene que las bacterias se propaguen en la superficie.

Su efecto lo consigue gracias a su composición de nanoarcillas dopadas de iones de plata. Las partículas de plata ancladas a las nanoarcillas se distribuyen por la superficie del material protegido de forma controlada. Este mecanismo asegura un efecto antimicrobiano uniforme y de larga duración en el tiempo.

La protección que se realiza no es un sellado propiamente, puesto que no se crea una película como en la imagen de la derecha, el protector se une permanentemente al sustrato como en la imagen de la izquierda, no forma película y no bloquea el poro.

Se consigue una superficie hidrófoba y oleófoba, esto se puede observar con la tensión superficial de una gota de agua sobre la superficie, tal como muestra la imagen inferior.

Toutes les pierres de L'Antic Colonial sont protégées avec BIOPROT, un imperméabilisant hydrofuge et oléofuge qui améliore les caractéristiques propres à la pierre naturelle, notamment sa résistance aux taches. En outre, BIOPROT réduit considérablement l'apparition de bactéries sur la surface de la pierre naturelle.

Il s'agit d'un traitement liquide qui, une fois appliqué, aide à réduire le dépôt de microorganismes sur la surface des produits, tout en inhibant l'apparition des mauvaises odeurs. Ce liquide non toxique crée une barrière pour prévenir la propagation des bactéries sur la surface.

Cet effet est possible grâce à sa composition en nanoargiles enrichies en ions d'argent. Les particules d'argent ancrées aux nanoargilles sont réparties sur la surface du matériau protégé de façon contrôlée. Ce mécanisme fournit un effet antimicrobien uniforme et de longue durée.

La protection dont il s'agit ne consiste pas à boucher la pierre, car aucune pellicule ne se forme comme sur l'image de droite. Le protecteur s'unit de façon permanente au support comme sur l'image de gauche. Il ne forme pas de pellicule et ne bloque pas les pores.

On obtient une surface hydrophobe et oléophobe, ce que l'on peut constater avec la tension superficielle d'une goutte d'eau sur la surface, comme on peut le voir sur l'image ci-dessous.

As for how long the protection lasts, this depends on many factors and it is impossible to give an exact or general figure. It depends on the type of stone, where it is laid, how it is used, how heavily it is used and the surface finish.

Heavily used surfaces must be sealed every year for optimal protection. If the maintenance recommendations have been followed, one way of checking how well the product is sealed is to place a few drops of water on the surface and leave them for 15 minutes. If the water makes the stone darker, this means that it has been absorbed and it is time to apply further protection.

Respecto a la duración de la protección, depende de muchos factores no se puede dar un dato exacto ni general. Depende del tipo de piedra, de donde está colocada, del uso que va a tener, de la intensidad del uso y el acabado de la superficie.

Las superficies muy utilizadas deben sellarse anualmente para una protección óptima, si se han seguido las recomendaciones de mantenimiento, un modo de comprobar la impermeabilización del producto es colocar unas gotas de agua en la superficie y déjelas 15 minutos, si el agua oscurece la piedra es que la ha absorbido, por tanto, es el momento de volver a proteger.

La durée de la protection dépend de nombreux facteurs et il est difficile de fournir une donnée précise ou générale. Cela dépend du type de pierre, de l'endroit où elle est posée, de son type d'utilisation, de l'intensité de l'utilisation et de la finition de la surface.

Les surfaces très utilisées doivent être traitées chaque année pour une protection optimale. Si les recommandations d'entretien ont été respectées, une manière de vérifier l'imperméabilisation du produit est de verser quelques gouttes d'eau sur la surface et de les laisser agir 15 minutes. Si la pierre est noircie par l'eau, cela veut dire qu'elle l'a absorbée et que c'est le moment d'appliquer une nouvelle protection.

FLEXIBLE MATERIAL
Airslate is manufactured with a fibreglass layer which reinforces the structure, provides greater flexibility, and enables installation on curved areas with a radius of up to 35cm.

MATERIAL FLEXIBLE
Airslate está realizado con una capa de fibra de vidrio que refuerza su estructura y le otorga un amplio grado de flexión, lo que permite ser instalado en zonas curvadas con un radio de hasta 35cm.

MATÉRIAU FLEXIBLE
Airslate est fabriqué avec une couche en fibre de verre qui renforce la structure et lui confère une grande capacité de flexion, ce qui permet de l'installer dans des espaces courbes d'un rayon pouvant aller jusqu'à 35cm.

Due to the texture natural of the stones, it is important that when the are grouted we try to cover the least amount of the pieces so as to make subsequent cleaning easier and prevent the joint from staying between the different textures.
Por el relieve natural de las piedras es importante que cuando se rejunte se trate de cubrir lo menos posible las piezas para facilitar la limpieza posterior y evitar que la junta se quede entre los diferentes relieves.
Lors du jointoiment, en raison du relief naturel des pierres, il est important de couvrir le moins possible les pièces pour faciliter le nettoyage ultérieur et éviter les restes de joints entre les différents reliefs.

Due to the texture natural of the stones, it is important that when the are grouted we try to cover the least amount of the pieces so as to make subsequent cleaning easier and prevent the joint from staying between the different textures.
Por el relieve natural de las piedras es importante que cuando se rejunte se trate de cubrir lo menos posible las piezas para facilitar la limpieza posterior y evitar que la junta se quede entre los diferentes relieves.
Lors du jointoiment, en raison du relief naturel des pierres, il est important de couvrir le moins possible les pièces pour faciliter le nettoyage ultérieur et éviter les restes de joints entre les différents reliefs.

FLEXIBLE MATERIAL
Airslate is manufactured with a fibreglass layer which reinforces the structure, provides greater flexibility, and enables installation on curved areas with a radius of up to 35cm.

MATERIAL FLEXIBLE
Airslate está realizado con una capa de fibra de vidrio que refuerza su estructura y le otorga un amplio grado de flexión, lo que permite ser instalado en zonas curvadas con un radio de hasta 35cm.

MATÉRIAU FLEXIBLE
Airslate est fabriqué avec une couche en fibre de verre qui renforce la structure et lui confère une grande capacité de flexion, ce qui permet de l'installer dans des espaces courbes d'un rayon pouvant aller jusqu'à 35cm.

The thickness indicated in the parts code corresponds to the nominal size. However, due to the fact that it is an artisan extraction and manufacture, parts may eventually be served with thicknesses close to the nominal size depending on availability.

El espesor indicado en el código de las piezas corresponde a la medida nominal, sin embargo debido a que se trata de una extracción y fabricación artesanal, las piezas eventualmente se podrán servir con espesores próximos al nominal según la disponibilidad.

L'épaisseur indiquée sur le code des éléments correspond à la dimension nominale. Toutefois, bien qu'il s'agisse d'une extraction et d'une fabrication artisanale, nous pouvons éventuellement fournir les éléments avec des épaisseurs proches de la dimension nominale en fonction de la disponibilité.

Due to the texture of the slates, it is important that when they are grouted we try to cover the least amount of the pieces so as to make subsequent cleaning easier and prevent the joint from staying between the different textures.
 Por el relieve de las pizarras es importante que cuando se rejunte se trate de cubrir lo menos posible las piezas para facilitar la limpieza posterior y evitar que la junta se quede entre los diferentes relieves.
 Lors du jointoiment, en raison du relief des ardoises, il est important de couvrir le moins possible les pièces pour faciliter le nettoyage ultérieur et éviter les restes de joints entre les différents reliefs.

Due to the texture of the slates, it is important that when they are grouted we try to cover the least amount of the pieces so as to make subsequent cleaning easier and prevent the joint from staying between the different textures.

Por el relieve de las pizarras es importante que cuando se rejunte se trate de cubrir lo menos posible las piezas para facilitar la limpieza posterior y evitar que la junta se quede entre los diferentes relieves.

Lors du jointoiment, en raison du relief des ardoises, il est important de couvrir le moins possible les pièces pour faciliter le nettoyage ultérieur et éviter les restes de joints entre les différents reliefs.

Natural Stone

Wall Covering: Wood Cubes, Airslate Delhi

All natural materials are perfectly imperfect. The differences between pieces make each of them unique and one-of-a-kind. This feature is NOT A PRODUCT DEFECT; it is an inherent part of the product's beauty.

If we are able to give you an understanding of our products' features, we are sure that we will meet all of your expectations in terms of quality and beauty. This is why it is extremely important for you to understand that you are buying a natural product which, in some cases, includes the following characteristics:

Slate is an exfoliative rock. This means it is made up of different layers, one on top of the other, which may eventually flake off; however, this does not affect product quality

Pinhole cavities filled with filler.

Some materials, such as travertine, have pinhole cavities on their surface. These cavities are treated using a filler with a color that is as close as possible to the stone. This is a feature of the material and it does not mean that the product is defective.

Repaired fissures or cracks.

Cracks normally appear on the surface of stones; these are repaired with resins. This strengthens the piece and improves its subsequent performance. This is a very common feature of most natural products and it should be taken into account when selecting them for a project.

Changes in shade.

All natural materials vary in shade and the structure of each piece. L'Antic Colonial carries out a thorough sorting process in which any items that do not meet our quality standards are rejected. We recommend that you purchase all the product you will need in the same order and production shade, as there may be slight changes in shade between different productions.

All possible variations are described in our products' technical specifications. If you have chosen one of our materials for your project, we recommend requesting photos of the boards or a few square meters of samples before purchasing them.

Todos los materiales naturales son perfectamente imperfectos. La variación existente entre piezas hace que cada una de ellas sea única e irreplicable. Esta característica NO ES UN DEFECTO DEL MATERIAL sino una parte inherente de la belleza del producto.

Si somos capaces de trasladarle las características de nuestros productos estamos convencidos que cubriremos sus expectativas en cuanto a calidad y belleza. Por ello es muy importante que entienda que está comprando un producto natural cuyas características incluyen en algunos casos:

La pizarra es una roca exfoliable, es decir, está formada por diferentes capas que se depositan una sobre otra y que eventualmente se pueden desprender, sin que esto afecte a las cualidades del producto

Coqueras rellenas de masilla.

Algunos materiales, como por ejemplo los travertinos, presentan coqueras en su superficie. Estas cavidades se tratan con una masilla del color posible más parecido al de la piedra. Esta característica forma parte del material y en ningún momento indica que se trata de un producto defectuoso.

Fisuras o grietas reparadas.

En la superficie de las piedras suelen aparecer grietas que son reparadas con resinas. De este modo se refuerza la pieza y se aumenta su rendimiento posterior. Esta característica es muy común en la mayoría de productos naturales y se debe tener en cuenta a la hora de seleccionarlos para un proyecto.

Variación de tonalidad.

Todos los materiales naturales varían tanto en tono como en la propia estructura de la pieza. Desde L'Antic Colonial se realiza una exhaustiva clasificación mediante la que se eliminan los elementos que no superan nuestros estándares de calidad. Recomendamos adquirir la totalidad del producto que se vaya a necesitar en el mismo pedido y tono de producción, puesto que podrían existir ligeros cambios de tonalidad entre las diferentes producciones.

En las fichas técnicas de nuestros productos se muestran las posibles variaciones de los mismos. Si ha seleccionado uno de nuestros materiales para su proyecto, le recomendamos que solicite imágenes de las tablas o unos metros cuadrados de muestra antes de realizar la compra.

Tous les matériaux naturels sont parfaitement imparfaits. Les variations qui existent d'un élément à l'autre les rendent totalement uniques. Cette caractéristique NE CONSTITUE PAS UN DÉFAUT DU MATÉRIAU, elle fait partie intégrante de la beauté du produit.

Si nous parvenons à vous transmettre les caractéristiques de nos produits, nous sommes convaincus de répondre à vos attentes en termes de qualité et de beauté. C'est la raison pour laquelle il est important que vous sachiez que vous achetez un produit naturel dont les caractéristiques incluent dans certains cas :

L'ardoise est une roche feuilletée, c'est-à-dire qu'elle se compose de différentes couches qui se déposent les unes sur les autres et qui peuvent éventuellement se détacher, sans pour autant affecter les qualités du produit.

Des cavités remplies de mastic.

Certains matériaux tels que les travertins sont caractérisés par de petites cavités sur la surface. Ces cavités sont bouchées avec un mastic d'une couleur semblable à celle de la pierre. Cette caractéristique fait partie intégrante du matériau et n'indique en aucun cas qu'il s'agit d'un produit défectueux.

Fissures réparées.

On répare les petites fissures qui apparaissent en général sur la surface des pierres avec des résines. Cela permet de renforcer la pièce et d'en augmenter le rendement ultérieur. Cette caractéristique est commune à la plupart des produits naturels et il faut en tenir compte lorsqu'on les choisit pour un projet.

Variation de tonalité.

Les matériaux naturels varient aussi bien au niveau de la tonalité que de la structure même de la pièce. Chez L'Antic Colonial, nous effectuons un tri sélectif exhaustif pour supprimer les éléments qui ne correspondent pas à nos standards de qualité. On recommande d'acheter tous les produits dont vous aurez besoin dans la même commande et dans la même nuance de production, car il peut y avoir de légers changements de nuance entre les différentes productions.

Les fiches techniques présentent les éventuelles variations de nos produits. Si vous avez sélectionné l'un de nos matériaux pour votre projet, nous vous conseillons de demander des images des plaques ou quelques mètres carrés d'échantillon avant de réaliser votre achat.

WARRANTY

All of our products are of the highest quality and have the guarantee provided by ISO 9001 certification and the Declaration of Conformity issued for the CE Marking. Additionally, the quality department of L'Antic Colonial, S.A.U. continuously monitors the quality of our products. All products are covered by a THREE-YEAR warranty, covering manufacturing defects when used under normal conditions and with proper fitting and installation. The goods must be checked carefully when they are delivered. Any fault, defect or breakage that is detected and occurred during transportation should be noted on the carrier company's delivery note. For furniture supplied in developments, building sites, etc., the warranty period will begin on their date of delivery.

This warranty does not apply to products that have been stored, assembled or installed incorrectly, have been used inappropriately or have been cleaned using unsuitable cleaning methods or products. This warranty does not cover products that have been in public places, outdoors or in corrosive environments.

Normal features of and changes to the natural product are excluded from the warranty; there may be slight differences in shade between the various component parts and differences in hue or vein. Moreover, if the products are compared at different times, the time that has elapsed and the weather conditions may cause variations in color and/or shade.

During the term of this warranty, L'Antic Colonial reserves the right to change the technical specifications and design of its product, without prior notice.

Warranty conditions:

-The product must have been purchased from an Official Dealer.
-It must not have been altered after being shipped from the factory.

-All recommendations for use and maintenance must have been followed.

-The products must not have been used, or exposed indefinitely, in any showroom, with the warranty period for such items being 30 days.

NOTE: The warranty document will apply subject to the consumer rights established by the current laws in each country and the provisions of the EU regulations.

MAINTENANCE

Maintenance is important for removing dirt, any stains that may have penetrated slightly, acid damage, restoring the shine of the material, etc. Proper maintenance ensures a longer life for the material.

GARANTÍA

Todos nuestros productos son de primera calidad y cuentan con la garantía otorgada por la certificación ISO 9001 y la Declaración de conformidad relacionada con el Marcado CE. Así mismo, el departamento de calidad de L'Antic Colonial, S.A.U. realiza un control permanentemente de la calidad de sus productos. Todos los productos están en garantía contra todo defecto de fabricación, en las condiciones normales de utilización y con un montaje e instalación correcto durante un periodo de TRES AÑOS, contando a partir de la fecha de entrega al primer usuario. Deberá ser revisada cuidadosamente la mercancía en el momento de la entrega. Toda anomalía, desperfecto o rotura detectada ocasionada en el transporte deberá ser anotada en el albarán de la agencia de transporte. En el caso de muebles suministrados en promociones, obras, etc..., el periodo de garantía contará a partir de la fecha de suministro de los mismos.

Esta garantía no se aplicará a aquellos productos que hayan sido almacenados, montados o instalados de forma incorrecta, o que se hayan utilizado de forma inapropiada, o que se hayan limpiado con métodos o productos de limpieza inadecuados. Esta garantía no se aplicará a aquellos productos que se hayan utilizado para uso público, en el exterior o en ambientes corrosivos.

Se excluyen de la garantía las características y evoluciones normales del producto natural, puede haber ligeras diferencias de tono entre los distintos elementos que lo componen y diferencias de matiz o veta. Además, si los productos se comparan en distintos momentos, el tiempo transcurrido y las condiciones climáticas pueden causar variaciones en color y/o tonalidad.

Durante la vigencia de la presente garantía, L'Antic Colonial se reserva, sin previo aviso, la posibilidad de modificar las especificaciones técnicas y de diseño de sus productos.

Condiciones de garantía:

-Que el producto haya sido adquirido en un Distribuidor Oficial.

-Que no haya sido alterado desde su salida de fábrica.

-Que se hayan respetado todas las recomendaciones de uso y mantenimiento.

-Que los productos no hayan sido utilizados, ni hayan estado expuestos por tiempo indefinido en cualquier exposición, siendo el periodo de garantía de estos artículos de 30 días.

NOTA: El documento de garantía, será de aplicabilidad, sin perjuicio de los derechos de los consumidores establecidos por la Ley vigente en cada país, así como lo dispuesto en la normativa comunitaria europea.

MANTENIMIENTO

El mantenimiento tiene la importante finalidad de eliminar la suciedad, manchas que hayan podido penetrar ligeramente, ataques ácidos, renovar el brillo del material, etc. Un correcto mantenimiento garantiza una vida más larga al material.

GARANTIE

Tous nos produits sont de première qualité et disposent de la garantie fournie par la certification ISO 9001 et de la déclaration de conformité relative au marquage CE. Par ailleurs, le service qualité de L'Antic Colonial, S.A.U. contrôle en permanence la qualité de ses produits. Tous les produits sont garantis contre les défauts de fabrication, dans des conditions normales d'utilisation, avec un montage et une installation conformes, pour une période de TROIS ANS à compter de la date de livraison chez le premier utilisateur. Examiner soigneusement la marchandise au moment de la livraison. Noter dans le bon de livraison de la société de transport toute anomalie, tout défaut ou toute casse détectée. Dans le cas des meubles fournis dans le cadre de promotions, sur le chantier, etc., la période de garantie est effective à partir de leur date de livraison.

Cette garantie ne s'applique pas aux produits ayant été mal stockés ou mal installés, utilisés de façon inadaptée ou nettoyés avec des méthodes ou des produits de nettoyage inadéquats. Cette garantie ne couvre pas les produits utilisés dans des espaces publics, en extérieur ou dans des environnements corrosifs.

Sont exclues de la garantie les caractéristiques et les évolutions normales du produit naturel. Il peut y avoir des variations de ton entre les éléments qui le composent, ainsi que des différences de nuances ou de veines. En outre, lorsque l'on compare les produits à des moments différents, la durée écoulée et les conditions climatiques sont susceptibles de causer des variations de couleur et/ou tonalité.

Au cours de la période de garantie, L'Antic Colonial se réserve le droit de modifier sans préavis les spécifications techniques et le design de ses produits.

Conditions de garantie:

- Le produit doit avoir été acheté chez un distributeur officiel.

- Il ne doit pas avoir été altéré depuis sa sortie d'usine.

- Toutes les recommandations d'utilisation et d'entretien doivent avoir été respectées.

- Les produits ne doivent pas avoir été utilisés ou exposés pendant une durée indéterminée; la période de garantie de ce type d'articles est de 30 jours.

REMARQUE: Le document de garantie sera applicable, sans préjudice des droits des consommateurs définis par la loi en vigueur dans chaque pays, conformément à la réglementation communautaire européenne.

ENTRETIEN

L'entretien a pour objectif principal d'éliminer la saleté, les taches légèrement incrustées et les attaques d'acides, de redonner de l'éclat au matériau, etc. Un bon entretien permet de prolonger la durée de vie du matériau.

NATURAL STONE

Regular cleaning: We recommend using a pH-neutral and powerful cleaner like Fila Cleaner, ensuring quick and effective cleaning without damaging the treatment. Simply dilute a cap of Fila Cleaner in a bucket of warm water and then mop without rinsing.

To eliminate stains or acid damage: In the case of stains caused by acidic substances (lemon, cola, tomato juice, anti-scale products, wine, vinegar, etc.) that have reacted with the natural stone, they can be eliminated by using the appropriate restoration kits available at L'Antic Colonial outlets. To remove organic stains, dyes and marker stains, we recommend using Fila Sr/95 color stain remover.

Restore or increase the level of shine: To restore or increase the current level of shine, we recommend using the specific natural wax FilaClassic. For proper application, first dilute the product and then apply it to the surface. After a few hours, gently rub a cloth on it to achieve the desired shine.

FURNITURE WOOD

Dust with a soft cloth at least twice a week. Furniture should never be exposed to excessive contact with water or with extremely high moisture, so make sure that the bathroom is well ventilated. If water is spilt on the surface, simply use a clean, dry cloth as soon as possible to prevent moisture penetration. As for grease stains, these can easily be removed with acetone.

Bear in mind that abrasive soaps, steel scouring pads, wax and polishing machines should not be used for normal, household cleaning and maintenance. Ideally, you should use a biodegradable cleaner that leaves no residue and does not require rinsing after application.

Avoid direct exposure to sunlight for prolonged periods of time. During peak sunlight hours, use curtains or blinds to minimize direct sunlight.

GLASS AND MIRRORS

Use a soft cloth, moistened with alcohol. Avoid using abrasive materials that can mark or scratch the surface.

STAINLESS STEEL

Stainless steel is a special type of steel with markedly high resistance to impacts, scratches, light and corrosion.

It does not require special care but it is important to avoid using abrasive materials. We recommend cleaning the surfaces with a soft cloth and alcohol.

PIEDRA NATURAL

Limpieza ordinaria: Se recomienda un limpiador con pH neutro y alto poder de limpieza como Fila Cleaner, así se garantiza una limpieza rápida y eficaz, respetando al mismo tiempo el tratamiento. Para ello se diluye un taponcito de Fila Cleaner en un cubo de agua tibia y luego se friega sin necesidad de aclarar.

Para eliminar manchas o ataques ácidos: En caso de que se formen manchas por ataques de sustancias ácidas (limón, cola, zumo de tomate, anticálcicos, vino, vinagre, etc.) que reaccionan con la piedra natural, se pueden eliminar utilizando un kit de restauración adecuado disponibles en los puntos de venta de L'Antic Colonial. Para eliminar manchas orgánicas, tintes y rotuladores se recomienda utilizar el quitamanchas de color Fila Sr/95.

Renovar o aumentar el grado de brillo: Para renovar o aumentar el grado de brillo existente, se recomienda utilizar la cera natural específica FilaClassic. Para una correcta aplicación se diluye previamente el producto, se aplica sobre la superficie y al cabo de unas horas se emplea con suavidad un paño para conseguir el brillo deseado.

MADERA DE LOS MUEBLES

Limpie el polvo con un paño suave por lo menos dos veces por semana. Los muebles no deben exponerse nunca a un contacto excesivo con agua o con una humedad extremadamente alta, por esta razón hay que asegurarse de que el baño cuenta con la ventilación adecuada. Si se derrama agua sobre la superficie, simplemente utilice un paño limpio y seco tan rápido como sea posible para evitar la penetración de la humedad. En cuanto a las manchas de grasa, estas se pueden eliminar fácilmente con acetona.

Debe tener en cuenta que la suciedad doméstica normal no deben utilizarse jabones abrasivos, estropajo de acero, cera o pulimentadora para su limpieza y conservación. Lo ideal es utilizar un limpiador biodegradable que no deje residuos y que no requiera enjuague después de la aplicación.

Evite la exposición directa de luz solar durante periodos de tiempo prolongados. Durante las horas de máxima luz solar, utilice cortinas o persianas para minimizar la luz solar directa.

CRISTAL Y ESPEJOS

Utilizar un paño suave humedecido con alcohol. Evitar la utilización de materiales abrasivos que pueden incidir o rayar la superficie.

ACERO INOXIDABLE

El acero inoxidable es un acero especial que se distingue por su elevada resistencia a los golpes, a las rayaduras, a la luz y a la corrosión.

No se requieren cuidados particulares pero es importante no utilizar materiales abrasivos. Se recomienda limpiar las superficies con un paño suave y alcohol.

PIERRE NATURELLE

Nettoyage ordinaire Il est recommandé d'utiliser un nettoyant à pH neutre et haut pouvoir nettoyant tel que Fila Cleaner pour réaliser un nettoyage rapide et efficace, tout en respectant le traitement. Pour ce faire, diluer un bouchon de Fila Cleaner dans un seau d'eau tiède puis frotter. Il n'est pas nécessaire de rincer.

Pour éliminer les taches provoquées par des substances acides: Les taches dues à des substances acides (citron, soda, jus de tomate, produit anticalcaire, vin, vinaigre, etc.) qui réagissent au contact de la pierre naturelle peuvent être éliminées à l'aide d'un kit de restauration adapté disponible dans les points de vente de L'Antic Colonial. Pour éliminer les taches organiques, les taches d'encre et de feutre, il est recommandé d'utiliser le détachant de couleur Fila Sr/95.

Rénover ou augmenter l'éclat: Pour rénover ou augmenter l'éclat du produit, il est recommandé d'utiliser la cire naturelle spécifique FilaClassic. Pour une bonne application, diluer le produit au préalable, appliquer sur la surface puis, au bout de quelques heures, utiliser un chiffon jusqu'à obtenir l'éclat souhaité.

BOIS DES MEUBLES

Nettoyer la poussière au moins deux fois par semaine à l'aide d'un chiffon doux. Les meubles ne doivent jamais être longtemps en contact avec l'eau ou être exposés à une humidité très élevée. C'est la raison pour laquelle la salle de bains doit être bien aérée. En cas de déversement d'eau sur la surface, passer dès que possible un chiffon sec et propre pour éviter que l'humidité ne pénètre. Quant aux taches de graisse, on peut les éliminer aisément avec de L'Antic Colonial étone.

Pour le nettoyage quotidien normal et l'entretien, ne pas utiliser de savons abrasifs, de tampons à récurer en acier, de cire ou de polisseuse. L'idéal est d'utiliser un nettoyant biodégradable ne laissant pas de résidus et n'exigeant pas de rinçage après application.

Éviter l'exposition directe à la lumière du soleil pendant de longues périodes. Pendant les heures d'ensoleillement maximal, utiliser des rideaux ou des volets pour réduire la lumière directe du soleil.

VERRE ET MIROIRS

Utiliser un chiffon doux humidifié avec de l'alcool. Éviter d'utiliser des matériaux abrasifs, susceptibles d'abîmer ou de rayer la surface.

ACIER INOXYDABLE

L'acier inoxydable est un acier spécial qui se distingue par sa grande résistance aux chocs, aux rayures, à la lumière et à la corrosion.

Il n'exige aucun entretien spécifique mais il est important d'éviter les matériaux abrasifs. Il est recommandé de nettoyer les surfaces à l'aide d'un chiffon doux et d'alcool.

CUSTOMIZED MOSAICS / MOSAICOS PERSONALIZADOS / MOSAÏQUES PERSONALISÉES

THE WORLD INSIDE MOSAICS

Custom mosaics allow us to capture any concept in small tesserae made with great care and precision. A work developed by artists. A product of the highest quality. An unbeatable finish.

EL MUNDO DENTRO DEL MOSAICO

Los mosaicos personalizados nos permiten plasmar cualquier concepto en pequeñas teselas elaboradas con gran cuidado y precisión. Un trabajo desarrollado por artistas. Un producto de máxima calidad. Un acabado inmejorable.

LE MONDE DANS LA MOSAÏQUE

Le monde dans la mosaïque. Les mosaïques personnalisées nous permettent de capturer n'importe quel concept en petites tesselles confectionnées avec beaucoup de soin et de précision. Une oeuvre développée par des artistes. Un produit de la plus haute qualité. Une finition imbattable.

NORMAL PRECISION SYSTEM G-291*

Customized mosaics with an image made up of uncut square mosaic chips. A high definition end result is not required. These mosaics are classified into 3 groups, depending on how hard it is to recreate the drawing with mosaic chips.

SISTEMA PRECISIÓN NORMAL G-291*

Mosaico personalizado en el que la imagen está formada por teselas cuadradas sin cortar y en el que no prima la definición de la misma. Se clasifican en tres grupos dependiendo de la dificultad en recrear el dibujo con las teselas.

SYSTÈME PRÉCISION NORMALE G-291*

Mosaïque personnalisée dans laquelle l'image est composée par des tesselles carrées non coupées et pour laquelle la définition de l'image n'est pas primordiale. Elle se classe en trois groupes en fonction de la difficulté de créer le dessin avec les tesselles.

HIGH PRECISION SYSTEM G-299*

Customized mosaics made up of chips that can be cut and arranged in different shapes to achieve high-definition end results. These mosaics are classified into 3 groups, depending on how complex it is to cut the mosaic chips.

SISTEMA PRECISIÓN ALTA G-299*

Mosaico personalizado en el que las teselas que lo forman se pueden cortar y disponer en diferentes formas para conseguir una gran definición. Se dividen en tres categorías dependiendo del nivel de dificultad en los cortes de las teselas.

SYSTÈME HAUTE PRÉCISION G-299*

Mosaïque personnalisée dans laquelle les tesselles qui composent l'image peuvent être coupées et disposées de différentes manières pour obtenir une grande définition. Elle se classe en trois catégories en fonction du niveau de difficulté de coupe des tesselles.

*NOTE: The price groups are intended for guidance only and may vary depending on the size of the mosaic.

Depending on the details of the drawing or photo, the measurements requested for the mosaic may vary, adapting to the size requirements so that the whole drawing or photo is visible. The smaller the size of the mosaic, the more difficult it is to adapt the drawing to the size.

*NOTA: Los grupos de precio son orientativos; dependiendo del tamaño del mosaico a realizar estos pueden variar.

En función del detalle del dibujo o foto, las medidas solicitadas para el mosaico pueden variar ajustándose a la necesidad de tamaño para que se aprecie todo el dibujo o foto. Cuanto menores sean las medidas del mosaico solicitado, mayor dificultad para ajustar el dibujo de las mismas.

*REMARQUES: Les gammes de prix sont données à titre indicatif; les prix peuvent varier en fonction de la taille de la mosaïque à réaliser.

En fonction du détail du dessin ou de l'image, les mesures demandées pour la mosaïque peuvent varier afin de s'adapter aux besoins, en termes de dimensions, pour que l'ensemble du dessin ou de l'image soit visible. Plus les mesures de la mosaïque souhaitée seront réduites, plus il sera difficile d'y adapter le dessin.

ENVIRONMENTAL COMMITMENT / COMPROMISO MEDIOAMBIENTAL / NOTRE ENGAGEMENT EN FAVEUR DE L'ENVIRONNEMENT

Natural wood is one of the most environmentally-friendly options available on the market. It is a renewable and sustainable product that is the best choice for an "eco-home".

Natural wood is one of the most abundant materials in nature. Sustainable forest management allows this raw material to be used without any impact on the environment.

At L'Antic Colonial we use wood from sustainable forests. Controlled forest areas where more trees are grown than felled. This way, we ensure the continuous creation of new green spaces, while also reducing the negative impact of carbon dioxide on the atmosphere.

Additionally, the manufacturing and installation of wood floors consumes far less energy than any other construction material.

The popularity of natural wood flooring is currently growing significantly, leading to higher consumption of this raw material. At the same time, the environmental commitment of the companies that produce these floors has also been consolidated.

At L'Antic Colonial, we made that commitment from day one. The environmental certifications that our natural wood products have are proof of this:

"THE AVERAGE ANNUAL NET GROWTH FOR HARDWOODS FOR WOOD FLOORS IS GREATER THAN THE AVERAGE ANNUAL REMOVAL RATE."

(Source: United States Department of Agriculture Forest Service).

"WOOD IS A CARBON NEUTRAL PRODUCT THAT PRODUCES OXYGEN DURING ITS GROWTH CYCLE AND STORES CARBON DURING ITS SERVICE LIFE."

Source: University of Wisconsin Wood Products Program Solid wood flooring. Life Cycle Analysis.

Los suelos de madera natural son una de las opciones más respetuosas con el medio ambiente del mercado. Se trata de un producto renovable y sostenible que supone la mejor elección para una "vivienda verde".

La madera natural es uno de los materiales más abundantes en la naturaleza. Una gestión forestal sostenible permite el uso de esta materia prima sin ningún impacto sobre el medio ambiente.

En L'Antic Colonial utilizamos madera proveniente de bosques sostenibles. Zonas forestales controladas en las que se cultivan muchos más árboles de los que se talan. De este modo aseguramos la creación constante de nuevos espacios verdes a la vez que reducimos el efecto negativo que el dióxido de carbono tiene en la atmósfera.

Además, el proceso de fabricación e instalación de pavimentos de madera consume mucha menos energía que cualquier otro material de construcción.

En la actualidad, la popularidad de los suelos de madera natural se ha incrementado considerablemente, lo que ha provocado el mayor consumo de esta materia prima. Paralelamente, también se ha consolidado el compromiso con el medio ambiente por parte de las empresas productoras de estos suelos.

En L'Antic Colonial tomamos ese compromiso desde el primer día. Así lo demuestran las certificaciones ambientales que poseen nuestros productos de madera natural:

"EL CRECIMIENTO MEDIO ANUAL NETO DE MADERAS DURAS PARA SUELOS DE MADERA ES MAYOR QUE EL PROMEDIO ANUAL DE EXTRACCIÓN."

(Fuente: Departamento de Agricultura del Servicio Forestal de Estados Unidos).

"LA MADERA ES UN PRODUCTO NEUTRO DE CARBONO QUE PRODUCE OXÍGENO DURANTE SU CICLO DE CRECIMIENTO Y ALMACENA CARBONO DURANTE SU SERVICIO DE VIDA."

Fuente: Universidad de Wisconsin Wood Products Program Tarima de madera maciza. Análisis del Ciclo de Vida).

Sur le marché, les planchers en bois naturel sont parmi les solutions les plus respectueuses de l'environnement. Ce produit renouvelable et durable est le meilleur choix pour une «habitation verte».

Le bois naturel fait partie des matériaux les plus abondants dans la nature. Une gestion durable des forêts permet une utilisation de cette matière première sans effets sur l'environnement.

L'Antic Colonial utilise du bois issu de forêts durables. Dans ces zones forestières contrôlées, on plante beaucoup plus d'arbres qu'on en coupe. Cela permet d'assurer la création constante de nouveaux espaces verts, tout en réduisant les répercussions négatives du dioxyde de carbone sur l'atmosphère.

En outre, le processus de fabrication et de pose des sols en bois consomme beaucoup moins d'énergie que tout autre matériau de construction.

De nos jours, les sols en bois naturel sont de plus en plus populaires, ce qui entraîne une plus grande consommation de cette matière première. Parallèlement, les entreprises qui fabriquent ce type de sol ont renforcé leur engagement en faveur de l'environnement.

L'Antic Colonial a pris cet engagement dès le premier jour. C'est ce dont témoignent les certifications environnementales que nos produits en bois naturel possèdent:

This is one of the easiest and most secure installation systems on the market. Simply place the board that is being fitted lengthwise to the last one laid and gently press down. The two pieces will fit together and remain secure thanks to the tongue and groove. It's just as easy to uninstall, so it can be taken up quickly.

Es uno de los sistemas de más fácil instalación y seguro del mercado. Tan sólo se tiene que ajustar la lama que se va a instalar en sentido longitudinal a la ya colocada ejerciendo una suave presión. Las dos piezas encajarán y quedarán sujetas gracias a la lengüeta de seguridad. Su desinstalación es igual de sencilla, lo que permite que sea desmontado rápidamente.

Ce système figure parmi les plus faciles à poser et les plus sûrs du marché. Il suffit d'ajuster la lame à poser dans le sens longitudinal par rapport à celle qui a déjà été posée, puis d'exercer une légère pression. Les deux pièces s'emboîtent et sont fixées grâce à la languette de sécurité. La procédure de désinstallation est aussi simple et rapide.

Sistema de instalación que consiste en ensamblar las lamas por medio de rebajes y cortes en sus cantos aplicando una pequeña presión en las tablas y fijándolo con una cola blanca. Para su disposición es necesario el uso de herramientas.

Système de pose qui consiste à assembler les lames grâce à un système de languettes et rainures sur les bords, en appuyant légèrement sur les lames pour ensuite les fixer avec de la colle blanche. Des outils sont nécessaires pour la pose.

One of the main features of this easy-to-install system is the durable and secure locking of the joints, ensuring that no gaps appear between the boards throughout the floor's useful life. The pressure exerted between the boards makes the joint more secure and prevents improper installation.

La seguridad y la durabilidad de unión entre juntas son las principales características de este sistema de fácil instalación que garantiza la eliminación de las rendijas entre las lamas durante toda la vida útil del suelo. La presión que se ejerce entre las lamas refuerza la unión e impide que ésta no se realice de forma incorrecta.

La sécurité et la durabilité de l'assemblage entre les lames sont les principales caractéristiques de ce système facile à poser, qui garantit l'élimination des fentes entre les lames pendant toute la durée de vie du sol. La pression exercée par les lames les unes contre les autres renforce l'assemblage et évite un montage incorrect.

DESCRIPTION OF FINISHES / DESCRIPCIÓN ACABADOS / DESCRIPTION FINITIONS

BRUSHED / CEPILLADO / BROSSAGE

Slight smoothing of the wood using a brush to achieve a surface with a slight relief.
Ligero desbastado de la madera utilizando un cepillo para conseguir así una superficie con ligero relieve.
Léger dégrossissage du bois avec une brosse pour obtenir un relief délicat sur la surface.

ARTISAN

The finish imitates traditional hand brushing of the wood, providing a rough and artisan look as the one cabinetmakers would achieve in the past.
Como hicieron los ebanistas de antaño, el acabado imita el tradicional cepillado a mano de la madera, proporcionando un aspecto rudo y artesano.
La finition imite le brossage traditionnel manuel du bois comme le faisaient les ébénistes d'autrefois, de manière à obtenir un aspect rustique et artisanal.

STAINED / TINTADO / TEINTURE

Applying a color oil or varnish on the wood surface in order to get different color ranges.
Aplicación de un aceite o barniz de color sobre la superficie de la madera para obtener diferentes gamas cromáticas.
Application d'une huile ou d'un vernis de couleur sur la surface du bois pour obtenir plusieurs tonalités chromatiques.

HEAT TRATED / TERMOTRATADO / TRAITEMENT THERMIQUE

Wood subjected to temperatures above 160°, thus altering its properties, and giving color to the entire wear layer section.
Madera sometida a temperaturas superiores a 160°, alterando de este modo sus propiedades y dando color a toda la sección de la capa noble.
Bois soumis à des températures supérieures à 160°, afin d'altérer ses propriétés et de donner de la couleur à toute la section de la couche noble.

NATUR

Combination of oils and waxes prepared for drying with UV lamps. With this finish, wood preserves the natural look of conventional oil but is more resistant to stains from everyday-use products and needs less maintenance. Advantages: Very natural look, low maintenance, and greater resistance to stains from water, wine, juice... Right after installing and before its first use we recommend the use of CLEAN&GREEN AQUA OIL 1L.

Combinación de aceites y ceras preparadas para ser secadas con lámparas ultravioleta. Con este acabado, la madera conserva el aspecto natural del aceite convencional pero tiene mas resistencia a las manchas de productos de uso cotidiano y un menor mantenimiento. Ventajas: Aspecto muy natural, bajo mantenimiento y mayor resistencia a manchas de agua, vino, zumo... Justo después de la instalación y antes del primer uso recomendamos la utilización de CLEAN&GREEN AQUA OIL 1L.

Combinaison d'huiles et de cires préparées pour être séchées avec des lampes à ultraviolets. Avec cette finition, le bois conserve l'aspect naturel de l'huile conventionnelle, mais il est plus résistant aux taches causées par les produits ménagers et nécessite moins d'entretien. Avantages: Aspect très naturel, peu d'entretien et plus de résistance aux taches d'eau, de vin, de jus... Suite à la pose et avant la première utilisation, il est recommandé d'employer CLEAN&GREEN AQUA OIL 1L.

NATUR PLUS

Combination of oils and natural waxes with air drying that leave the wood with open pores. This type of oil penetrates into the wood continuously, even when it is fitted, so that it may have a 'dry' look when opened to be installed. Advantages: Easy repair of dents and scratches, very natural look, and easy maintenance with the right products. Right after installing and before its first use we recommend the use of CLEAN&GREEN AQUA OIL 1L.

Combinación de aceites y ceras de origen natural con secado al aire que dejan la madera con el poro abierto. Este tipo de aceite penetra continuamente en la madera, aun estando encajado, por lo que puede presentar un aspecto "seco" al abrirlo para ser colocado. Ventajas: Fácil reparación de golpes y rayas, aspecto muy natural y mantenimiento sencillo con los productos adecuados. Justo después de la instalación y antes del primer uso recomendamos la utilización de CLEAN&GREEN AQUA OIL 1L.

Combinaison d'huiles et de cires d'origine naturelle avec séchage à l'air qui laisse les pores du bois ouverts. Ce type d'huile pénètre dans le bois en permanence, même lorsqu'il est assemblé ; il peut donc avoir un aspect «sec» lorsqu'on l'ouvre avant de le poser. Avantages: Chocs et rayures faciles à réparer, aspect très naturel et simplicité d'entretien avec les produits appropriés. Suite à la pose et avant la première utilisation, il est recommandé d'employer CLEAN&GREEN AQUA OIL 1L.

APRESTO / APRESTO MATE

L'Antic Colonial's varnishing, in two finishes, APRESTO (gloss) and APRESTO MATE (matte), provides a unique surface quality that satisfies the most demanding requirements. Advantages: It achieves the highest cleanliness because, since the pores are sealed, dirt and dust remain on the surface and can be easily cleaned.

El barnizado de L'Antic Colonial, en sus dos acabados, APRESTO (satinado) y APRESTO MATE, proporciona una calidad de superficie única, que satisface las mayores exigencias. Ventajas: Logra el nivel más alto de higiene, ya que al sellar los poros la suciedad y el polvo quedan en la superficie, pudiendo ser limpiados fácilmente.

Le vernissage de L'Antic Colonial dans les deux finitions, APRESTO (satinée) et APRESTO MATE, permet d'obtenir une qualité de surface unique qui répond aux exigences les plus strictes. Avantages: Il permet un plus haut niveau d'hygiène car, les pores étant bouchés, la saleté et la poussière restent en surface et sont plus faciles à éliminer.

MULTILAYER

Structure formed by an upper layer that shows the noble aspect of the material, an intermediate layer of wood of different typology, depending on the collection, or HDF board that compensates the tensions between the different parts and a lower plywood that provides dimensional stability.

MULTICAPA

Estructura formada por una capa superior que muestra el aspecto noble del material, una capa intermedia de madera de diferente tipología dependiendo de la colección o tablero de HDF que compensa las tensiones entre las diferentes partes y un contrachapado inferior que aporta estabilidad dimensional.

MULTICOUCHE

Structure formée par une couche supérieure qui montre l'aspect noble du matériau, une couche intermédiaire de bois dont la typologie varie selon la collection, ou un panneau HDF qui compense les tensions entre les différentes parties et un contreplaqué inférieur qui assure la stabilité dimensionnelle.

FLOATING INSTALLATION

Installation system where gluing the boards to the floor is not necessary. They are installed on a foam and joined together.

INSTALACIÓN FLOTANTE

Sistema de instalación en el que no es necesario encolar las tablas al suelo. Se colocan sobre un foam unidas entre si.

SYSTÈME FLOTTANT

Système d'installation où il n'est pas nécessaire de coller les planches au sol. On les pose sur une mousse, assemblées entre elles.

RADIANT WATER FLOOR HEATING

Is suitable for installing on water radiant heating.

CALEFACCIÓN RADIANTE POR AGUA

CHANGES IN COLOR / VARIACIÓN DE COLOR / ALTÉRATION DE LA COULEUR

COLOR CHANGES IN NATURAL WOOD

Natural wood flooring is a living product that changes over time. The color of these unique elements can change if they are continuously exposed to light. These changes are foreseeable and can be reduced by regularly moving the furniture in the room. These images show the variations in shade that occur in different types of wood when they are continuously exposed to light.

CAMBIOS DE COLOR EN LA MADERA NATURAL

Los parquetes de madera natural son productos vivos que cambian con el paso del tiempo. Elementos únicos que, si se exponen continuamente a la luz pueden sufrir alteraciones de color. Estas variaciones son previsibles y se pueden mitigar con movimientos periódicos del mobiliario de la estancia. Estas imágenes muestran las variaciones de tonos que sufren las diferentes maderas al estar expuestas continuamente a la luz.

CHANGEMENTS DE COULEUR SUR LE BOIS NATUREL

Les parquetes en bois naturel sont des produits vivants qui évoluent au fil du temps. Ce sont des éléments uniques dont les couleurs peuvent s'altérer sous l'effet d'une exposition constante à la lumière. Ces variations sont prévisibles et on peut les atténuer en déplaçant de façon périodique les meubles de la pièce. Ces images illustrent les variations de tonalités que les différents bois subissent lorsqu'ils sont exposés à la lumière en permanence.

HYGROSCOPIC EQUILIBRIUM MOISTURE CONTENT OF WOOD / HUMEDAD EQUILIBRIO HIGROSCÓPICO DE LA MADERA / HUMIDITÉ ÉQUILIBRE HYGROSCOPIQUE DU BOIS

Natural Wood

The Kollman Calculator is a value that determines the hygroscopic equilibrium of wood. Taking into account the relative humidity and temperature levels in the room, we can determine the wood's internal moisture content, which tells us whether it has the optimal conditions for installation. For example, in a property whose hygrometric conditions are: RH 60% and temperature 20°C, the moisture content of the wood should range from 11% to 12%. Any value above or below this range indicates that the wood is being subjected to stress, which may cause deformations or cracks in the boards.

El Abaco de Kollman es un valor que marca el equilibrio higroscópico de la madera. Teniendo en cuenta los datos de la humedad relativa y temperatura de la estancia podemos saber la humedad interna de la madera, que nos marcará si ésta tiene las condiciones óptimas para ser instalada. Por ejemplo, en una vivienda cuyas condiciones higrométricas son: Hr 60% y T 20°C; la humedad de la madera debe oscilar entre el 11% y 12%. Cualquier valor que esté por encima o por debajo de este resultado indica que la madera está sometida a estrés, lo que puede provocar deformaciones o grietas en las tablas.

L'abaque de Kollman est une valeur qui définit l'équilibre hygroscopique du bois. En tenant compte de l'humidité relative et la température d'une pièce, on peut déterminer l'humidité interne du bois, ce qui permet de savoir si ses conditions sont optimales la pose. Par exemple, dans une habitation présentant les conditions hygrométriques suivantes: Hr = 60% et T = 20°C; l'humidité du bois doit varier entre 11% et 12%. Tout résultat non compris entre ces valeurs indique que le bois est soumis à des contraintes, ce qui peut entraîner des déformations ou des fissures des planches.

BEAR IN MIND / A TENER EN CUENTA / À PRENDRE EN COMPTE

All natural materials are perfectly imperfect. The differences between pieces make each of them unique and one-of-a-kind. This feature is NOT A PRODUCT DEFECT; it is an inherent part of the product's beauty.

If we are able to give you an understanding of our products' features, we are sure that we will meet all of your expectations in terms of quality and beauty. This is why it is extremely important for you to understand that you are buying a natural product which, in some cases, includes the following characteristics:

1.- Knots filled with wood putty

The grains and knots in natural wooden flooring are one of the main features that make each board unique and they are part of the product's beauty. They are filled with wood putty that is a similar color to the shade of the wood or with a black wood putty, depending on the model. In our catalog you can find information about the size of the knots and the quantity that may appear.

2.- Changes in shade

All natural materials vary in shade and the structure of each piece. L'Antic Colonial carries out a thorough sorting process in which any items that do not meet our quality standards are rejected. All possible variations are described in our products' technical specifications. If you have chosen one of our materials for your project, we recommend requesting photos of the panels or a few square meters of samples before purchasing them.

"THE BEST FRIEND ON EARTH OF MAN IS THE TREE. WHEN WE USE THE TREE RESPECTFULLY AND ECONOMICALLY, WE HAVE ONE OF THE GREATEST RESOURCES OF THE EARTH"

Frank Lloyd Wright

Todos los materiales naturales son perfectamente imperfectos. La variación existente entre piezas hace que cada una de ellas sea única e irrepetible. Esta característica NO ES UN DEFECTO DEL MATERIAL sino una parte inherente de la belleza del producto.

Si somos capaces de trasladarle las características de nuestros productos estamos convencidos que cubriremos sus expectativas en cuanto a calidad y belleza. Por ello es muy importante que entienda que está comprando un producto natural cuyas características incluyen en algunos casos:

1.- Nudos rellenos de masilla

Las vetas y nudos de los parquetes de madera natural son una de las principales características que hacen de cada lama un elemento único y que forma parte de la belleza del producto. Éstas se rellenan con una masilla de un color similar al tono de la madera o con masilla negra dependiendo del modelo. En nuestro catálogo encontrará información, tanto del tamaño de los nudos como de la cantidad que pueden aparecer.

2.- Variación de tonalidad

Todos los materiales naturales varían tanto en tono como en la propia estructura de la pieza. Desde L'Antic Colonial se realiza una exhaustiva clasificación mediante la que se eliminan los elementos que no superan nuestros estándares de calidad. En las fichas técnicas de nuestros productos se muestran las posibles variaciones de los mismos. Si ha seleccionado uno de nuestros materiales para su proyecto, le recomendamos que solicite imágenes de paneles o unos metros cuadrados de muestra antes de realizar la compra.

"EL MEJOR AMIGO DEL HOMBRE EN LA TIERRA ES EL ÁRBOL. USARLO CON RESPETO Y MODERACIÓN GARANTIZA UNO DE LOS MEJORES RECURSOS DEL PLANETA"

Frank Lloyd Wright

Tous les matériaux naturels sont parfaitement imparfaits. Les variations qui existent d'un élément à l'autre les rendent totalement uniques. Cette caractéristique NE CONSTITUE PAS UN DÉFAUT DU MATÉRIAU, elle fait partie intégrante de la beauté du produit.

Si nous parvenons à vous transmettre les caractéristiques de nos produits, nous sommes convaincus de répondre à vos attentes en termes de qualité et de beauté. C'est la raison pour laquelle il est important de savoir que vous achetez un produit naturel dont les caractéristiques incluent dans certains cas:

1.- Des nœuds remplis de mastic

Les veines et les nœuds constituent l'une des principales caractéristiques des parquetes en bois naturel; ils sont inhérents à la beauté du produit et donnent à chaque lame son caractère unique. Ces nœuds sont remplis d'un mastic noir ou dont la couleur est similaire au ton du bois, en fonction du modèle. Vous trouverez dans notre catalogue des informations sur la taille et la quantité des nœuds qui peuvent apparaître.

2.- Variation de tonalité

Les matériaux naturels varient aussi bien au niveau de la tonalité que de la structure même de la pièce. Chez L'Antic Colonial, nous effectuons un tri sélectif exhaustif pour supprimer les éléments qui ne correspondent pas à nos standards de qualité. Les fiches techniques présentent les éventuelles variations de nos produits. Si vous avez sélectionné l'un de nos matériaux pour votre projet, nous vous conseillons de demander des images des panneaux ou quelques mètres carrés d'échantillon avant de réaliser votre achat.

Et voilà.

This is one of the easiest and most secure installation systems on the market. Simply place the board that is being fitted lengthwise to the last one laid and gently press down. No tool required. The two pieces will fit together and remain secure thanks to the tongue and groove. It's just as easy to uninstall, so it can be taken up quickly.

Es uno de los sistemas de más fácil instalación y seguro del mercado. Tan sólo se tiene que ajustar la lama que se va a instalar en sentido longitudinal a la ya colocada ejercer una suave presión sin ningún tipo de herramienta. Las dos piezas encajarán y quedarán sujetas gracias a la lengüeta de seguridad. Su desinstalación es igual de sencilla, lo que permite que sea desmontado rápidamente.

Ce système figure parmi les plus faciles à poser et les plus sûrs du marché. Il suffit d'ajuster la lame à poser dans le sens longitudinal par rapport à celle qui a déjà été posée, puis d'exercer une légère pression sans utiliser d'outils. Les deux pièces s'emboîtent et sont fixées grâce à la languette de sécurité. La procédure de désinstallation est aussi simple et rapide.

Et voilà.

One of the main features of this easy-to-install system is the durable and secure locking of the joints, ensuring that no gaps appear between the boards throughout the floor's useful life. The pressure exerted between the boards makes the joint more secure and prevents improper installation.

La seguridad y la durabilidad de unión entre juntas son las principales características de este sistema de fácil instalación que garantiza la eliminación de las rendijas entre las lamas durante toda la vida útil del suelo. La presión que se ejerce entre las lamas refuerza la unión e impide que ésta no se realice de forma incorrecta.

La sécurité et la durabilité de l'assemblage entre les lames sont les principales caractéristiques de ce système facile à poser, qui garantit l'élimination des fentes entre les lames pendant toute la durée de vie du sol. La pression exercée par les lames les unes contre les autres renforce l'assemblage et évite un montage incorrect.

Il faut bloquer.

5. Hit the short of the plank until it fits together.
Golpear el lado corto hasta encajar.
Il faut frapper le petit côté jusqu'à ce qu'il s'enclenche en place.

Mounting system in which you only have to adjust the slat to be installed lengthwise without inclination near the one already placed, hitting with a block the end of the piece on the short side to be placed to finish joining the joints. The two pieces will fit together and will be held in place by the pressure exerted.

Sistema de montaje en el que tan solo se tiene que ajustar la lama que va a instalar en sentido longitudinal sin inclinación cerca de la ya colocada, golpeando con un taco el extremo de la pieza del lado corto a colocar para terminar de unir las uniones. Las dos piezas encajarán y quedarán sujetas por la presión que se ejerce.

Système d'assemblage dans lequel il suffit d'ajuster la latte à installer dans le sens de la longueur sans inclinaison près de celle déjà installée, en frappant l'extrémité de la pièce sur le côté court à installer avec une cheville pour finir de joindre les joints. Les deux pièces s'emboîteront et seront maintenues en place par la pression exercée.

This system is quick and easy to install. Place the board that is being fitted lengthwise to the last one laid and give it a couple of gentle taps with a rubber hammer. It should be taken up crosswise between pieces.

Es un sistema de instalación rápido y sencillo. Ajustar la lama que se va a instalar en sentido longitudinal a la ya colocada y ejercer un par de ligeros golpes con un martillo de goma. Su desinstalación debe realizarse en sentido transversal entre piezas.

C'est un système de pose facile et rapide. Placer la lame à poser dans le sens longitudinal par rapport à celle déjà posée, puis tapoter légèrement avec un marteau en caoutchouc. Pour la désinstallation, procéder dans le sens transversal entre les pièces.

One of the main features of this easy-to-install system is the durable and secure locking of the joints, ensuring that no gaps appear between the boards throughout the floor's useful life. The pressure exerted between the boards makes the joint more secure and prevents improper installation.

La seguridad y la durabilidad de unión entre juntas son las principales características de este sistema de fácil instalación que garantiza la eliminación de las rendijas entre las lamas durante toda la vida útil del suelo. La presión que se ejerce entre las lamas refuerza la unión e impide que ésta no se realice de forma incorrecta.

La sécurité et la durabilité de l'assemblage entre les lames sont les principales caractéristiques de ce système facile à poser, qui garantit l'élimination des fentes entre les lames pendant toute la durée de vie du sol. La pression exercée par les lames les unes contre les autres renforce l'assemblage et évite un montage incorrect.

5. Hit the short of the plank until it fits together.
Golpear el lado corto hasta encajar.
Il faut frapper le petit côté jusqu'à ce qu'il s'enclenche en place.

Mounting system in which you only have to adjust the slat to be installed lengthwise without inclination near the one already placed, hitting with a block the end of the piece on the short side to be placed to finish joining the joints. The two pieces will fit together and will be held in place by the pressure exerted.

Sistema de montaje en el que tan solo se tiene que ajustar la lama que va a instalar en sentido longitudinal sin inclinación cerca de la ya colocada, golpeando con un taco el extremo de la pieza del lado corto a colocar para terminar de unir las uniones. Las dos piezas encajarán y quedarán sujetas por la presión que se ejerce.

Système d'assemblage dans lequel il suffit d'ajuster la latte à installer dans le sens de la longueur sans inclinaison près de celle déjà installée, en frappant l'extrémité de la pièce sur le côté court à installer avec une cheville pour finir de joindre les joints. Les deux pièces s'emboîteront et seront maintenues en place par la pression exercée.

FEATURES / CARACTERÍSTICAS / CARACTÉRISTIQUES

Skins is a new line of decorative wallpaper that expands Porcelanosa Group's offer in interior wall coverings.

It is an extraordinarily popular design option today and it is increasingly used by decorators and interior designers as it allows different styles to be captured with uniqueness and elegance.

It is washable and easy to install, features that contribute to it being an increasingly used decorative solution.

It can be applied in living rooms or bedrooms, on one wall, on two or on all of them, having the option of combining different models to create your own space with maximum originality and versatility. It can also be used for kitchens and bathrooms on walls where there is no direct contact with water.

SKINS es una nueva línea de papel pintado decorativo que amplía la oferta del Grupo Porcelanosa en revestimientos interiores.

Constituye una opción de diseño extraordinariamente popular hoy en día y es cada vez más utilizado por decoradores e interioristas ya que permite plasmar diferentes estilos con singularidad y elegancia.

Es lavable y de fácil instalación, características que contribuyen a que sea una solución decorativa cada vez más utilizada.

Se aplica en salones o habitaciones, en una pared, en dos o en todas ellas, teniendo la opción de combinar diferentes modelos para crear tu propio espacio con la máxima originalidad y versatilidad. También se puede utilizar para cocinas y baños en las paredes donde no haya contacto directo con el agua.

Skins est une nouvelle ligne de papier peint décoratif qui vient enrichir l'offre du groupe Porcelanosa en revêtements muraux intérieurs.

De nos jours, le papier peint est une possibilité décorative très tendance que de plus en plus de décorateurs et d'architectes d'intérieur utilisent, car il permet de créer de nombreux styles avec singularité et élégance.

Il est lavable et facile à poser, autant de caractéristiques qui contribuent à en faire une solution décorative de plus en plus utilisée.

On l'utilise dans les salons ou les chambres, que ce soit sur un seul mur, sur deux ou sur quatre. Il y a également la possibilité de combiner plusieurs modèles pour créer son propre espace, avec un maximum d'originalité et de polyvalence. Il peut également être utilisé pour les cuisines et les salles de bains sur les murs où il n'y a pas de contact direct avec l'eau.

CONSTRUCTION / CONSTRUCCIÓN / CONSTRUCTION

The Skins Wallpaper family presents in the MURALSS collection a wide selection of unique floral and abstract motifs. These references have two types of support:

Non-Woven Fabric (NWF)

Unlike paper based wallpaper, L'Antic Colonial wallpaper is made of high quality non-woven fabric as backing.

It comes in 280cm x 416cm format (rolls of 52cm width).

Vinyl Wallpaper

A superior vinyl wallpaper with smooth texture on the surface washable and resistant. It is suitable for residential and commercial applications.

It comes in 280cm x 390cm format (rolls of 65cm width).

La familia Skins Wallpaper presenta en la colección MURALSS una amplia selección de motivos florales y abstractos únicos. Estas referencias cuentan con dos tipos de soporte:

Tejido No Tejido (TNT)

A diferencia de los papeles pintados a base de un soporte de papel, los papeles pintados TNT comprenden un tejido no tejido especial de alta calidad que se emplea como material de soporte.

Se sirve en formato 280cm x 416cm (rollos de 52cm de ancho).

Vinílico

Se trata de un soporte vinílico de alta calidad con una fina textura sobre la superficie.

Es lavable, resistente e idóneo tanto para uso residencial como comercial.

Se sirve en formato 280cm x 390cm (rollos de 65cm de ancho).

La famille de papiers peints Skins présente dans la collection MURALSS une large sélection de motifs floraux et abstraits uniques. Ces références ont deux types de support :

Textile Non Tissé (TNT)

Contrairement aux papiers peints à base papier, les papiers peints TNT comprennent un textile non tissé particulier de grande qualité, utilisé comme matériau de base.

Il est fourni en format 280cm x 416cm (rouleaux de 52cm de large).

Vinyle

Il s'agit d'une base en vinyle de grande qualité avec une texture fine sur la surface. Lavable et résistant, il est idéal pour un usage résidentiel ou commercial.

Il est fourni en format 280cm x 390cm (rouleaux de 65cm de large).

KIND OF INSTALLATION / TIPO DE INSTALACIÓN / TYPE D'INSTALLATION

The matching marks the distance in which the pattern is repeated along a roll of wallpaper. Therefore, you need to take this measurement into account for the installation of designs that feature both straight and skipped matchings.

During installation, so that the pattern is not mismatched between the strips, there is a waste equivalent to the size of the matching. Therefore, to calculate the number of rolls that will be needed, we must take into account these measurements.

El case marca la distancia en que el patrón se repite a lo largo de un rollo de papel pintado. Por tanto es necesario tener en cuenta esta medida para la instalación de los diseños que cuenta con case recto y salteado.

Durante la instalación, para que el dibujo no quede descuadrado entre las tiras, se produce un desperdicio equivalente a la medida del case. Por ello, para calcular la cantidad de rollos que nos harán falta, debemos tener en cuenta dichas medidas.

Le rapport indique la distance à laquelle le motif se répète le long d'un rouleau de papier peint. Il est donc nécessaire de tenir compte de cette mesure pour installer les modèles ayant un raccord droit ou sauté.

Au cours de la pose, pour éviter que le dessin ne soit décalé entre les lés, il y a une perte équivalant à la mesure du raccord. Pour calculer la quantité de rouleaux nécessaires, il faut prendre en compte ces mesures.

We recommend purchasing all the wallpaper you will need in the same order and production shade, since there will be slight changes in shade between the different dyes/lots.

Recomendamos adquirir la totalidad del papel pintado que se vaya a necesitar en el mismo pedido y tono de producción, puesto que existirán ligeros cambios de tonalidad entre las diferentes tintadas/lotas.

Nous vous recommandons d'acheter tous les papiers peints dont vous aurez besoin dans la même commande et dans la même nuance de production, car il y aura de légères variations de nuance entre les différentes teintées/lots.

We recommend purchasing all the wallpaper you will need in the same order and production shade, since there will be slight changes in shade between the different dyes/lots.

Recomendamos adquirir la totalidad del papel pintado que se vaya a necesitar en el mismo pedido y tono de producción, puesto que existirán ligeros cambios de tonalidad entre las diferentes tintadas/lotas.

Nous vous recommandons d'acheter tous les papiers peints dont vous aurez besoin dans la même commande et dans la même nuance de production, car il y aura de légères variations de nuance entre les différentes teintes/lotes.

SLIP RESISTANCE

Slip resistance is an important consideration when choosing a floor covering, whether it is intended for indoor dry areas or indoor or outdoor wet areas. Two of the most widely recognized methods for evaluating slip resistance are the Friction Pendulum and the DCOF.

- Determination of slip resistance by the Friction Pendulum method:

"Rd" value is determined by means of the Friction Pendulum test described in section 7 of the UNE 41901 EX and UNE 41902 EX standards. The following table establishes the classification of floors according to their slipperiness. According to the results of the test, the following classification is established according to their greater or lesser slip resistance:

SLIP RESISTANCE RD	CLASS
Rd < 15	0
15 < Rd < 35	1
35 < Rd < 45	2
Rd < 45	3

- Dynamic Coefficient of Friction (DCOF):

The DCOF (Dynamic Coefficient of Friction) value is obtained as described in ANSI A137.1 Section 9.6. The Dynamic Coefficient of Friction is determined by a numerical range between zero and one. A lower number indicates that the surface has less friction, traction and is therefore more slippery, and a higher DCOF number means that it has more friction, traction and is less slippery.

It is advisable to follow the installation and maintenance instructions published by L'Antic Colonial, S.A.U., observing in any case the legal or regulatory requirements that may exist for each area of use, and/or for each country or region.

RESISTENCIA AL DESLIZAMIENTO

La resistencia al deslizamiento es una consideración importante a tener en cuenta en el momento de elegir un pavimento, ya sea para destinarlo a zonas secas interiores o zonas húmedas interiores o exteriores. Dos de los métodos más reconocidos para evaluar la resistencia al deslizamiento, son el Péndulo de Fricción y el DCOF.

- *Determinación de la resistencia al deslizamiento por el método del Péndulo de Fricción:*

El valor "Rd" se determina mediante el ensayo del Péndulo de Fricción descrito en el punto 7 de las normas UNE 41901 EX y UNE 41902 EX. La siguiente tabla establece la clasificación de los suelos según su resbaladidad. Según los resultados del ensayo, se establece la siguiente clasificación según su mayor o menor resistencia al deslizamiento:

RESISTENCIA AL DESLIZAMIENTO RD	CLASE
Rd < 15	0
15 < Rd < 35	1
35 < Rd < 45	2
Rd < 45	3

- *Coefficiente Dinámico de Fricción (DCOF):*

El valor DCOF (Coeficiente Dinámico de Fricción) se obtiene según lo descrito en la norma ANSI A137.1 Section 9.6. El Coeficiente Dinámico de Fricción se determina mediante un rango numérico entre cero y uno. Un número más bajo indica que la superficie tiene menos fricción, tracción y por lo tanto es más resbaladiza, y un número DCOF más alto significa que tiene más fricción, tracción y es menos resbaladiza.

Se aconseja seguir las instrucciones de colocación y mantenimiento editadas por L'Antic Colonial, S.A.U. cumpliendo en cualquier caso con los requisitos legales o normativos que pudieran existir para cada ámbito de uso, y/o de cada país o región.

RÉSISTANCE AU GLISSEMENT

La résistance au glissement est une considération importante lors du choix d'un revêtement de sol, qu'il soit destiné à des zones intérieures sèches ou à des zones intérieures ou extérieures humides. Deux des méthodes les plus reconnues pour évaluer la résistance au dérapage sont le pendule à friction et le DCOF.

- Détermination de la résistance au glissement par la méthode du pendule à friction :

La valeur "Rd" est déterminée au moyen de l'essai de friction au pendule décrit au point 7 des normes UNE 41901 EX et UNE 41902 EX. Le tableau suivant établit la classification des sols en fonction de leur glissance. Selon les résultats des tests, la classification suivante est établie en fonction de leur plus ou moins grande résistance au glissement :

RÉSISTANCE AU GLISSEMENT RD	CLASSE
Rd < 15	0
15 < Rd < 35	1
35 < Rd < 45	2
Rd < 45	3

- Coefficient de friction dynamique (DCOF) :

La valeur DCOF (Coefficient de friction dynamique) est obtenue comme décrit dans la norme ANSI A137.1 section 9.6. Le coefficient de friction dynamique est déterminé par une plage numérique comprise entre zéro et un. Un chiffre plus bas indique que la surface a moins de friction, de traction et est donc plus glissante, et un chiffre DCOF plus élevé signifie qu'elle a plus de friction, de traction et est moins glissante.

On préconise de suivre les instructions d'installation et d'entretien publiées par L'Antic Colonial, S.A.U., en respectant dans tous les cas les exigences légales ou réglementaires qui peuvent exister pour chaque zone d'utilisation, et/ou pour chaque pays ou région.
