PORCELANOSA BATHS

ARO

by estudi{H}ac

Water is the focal point of this series. The deep bowl shapes of the different items in the ARO collection are inspired by the Japanese tea ceremony, evoking the porcelain cups used in this ritual. Estudi{H}ac has reinterpreted this age-old tradition in modern natural designs and clean semi-circular shapes, in a warm compact mineral material as innovative as KRION® Solid.

The different items in the collection are encircled by a flat hoop, evoking hands proffering a cup to a guest, just as bathrooms offer water's ritual pleasures. As well as acting as the leitmotif to the whole collection, this ring also fulfils a more practical function, since it also fixes the washbasins to the wall and supports the ARO bathtub.

The KRION® lacquer finishes can also be combined with certain additional wood features, adding to the elegance and distinctive personality of this highly original collection.
