KRION SHELL®

KRION SHELL®

Krion Shell® is an Engineered Mineral Composite developed in-house by Krion. It consists of two parts: a structural inner core, made primarily of minerals (dolomite) with an eco-friendly resin binder, and a solid uniform outer surface made of mineral materials (ATH) and resins.

3/4 MINERALS

Most of the inner core of Krion Shell® is made of minerals (dolomite) found in abundance on the planet.

1/4 ECO-FRIENDLY RESINS

To bind the minerals, an eco-friendly resin is used, made of waste plastic. By using recycled PET plastics, waste materials are given a new life and a circular economy is promoted in the creation of Krion Shell®, minimizing the consumption of the planet's resources.

SCS Global Service, a leading North-American independent environmental certification agency, verifies and guarantees that all certified products made of Krion Shell® contain at least 5% recycled waste plastic in their composition, hence contributing to more sustainable, environmentally-friendly manufacturing processes.

At least 5% waste plastic is used in its total composition

Material origin

75% of its composition is mineral.

Sustainability

Not only does it contain a minimum of up to 5% recycled material; it is a resistant, durable product with a long life cycle.

Resistance to impact

Krion Shell® is capable of incredible resistance to common impacts in a bathroom.

Resistance to staining

Its zero-porosity makes it more resistant to stains, including those which have remained for a long time.

Safe

Krion Shell® is tested under strict trials which certify that it is a safe product, free of dangerous components.

Easy cleaning

Its easy cleaning allows time and the use of cleaning products to be reduced.

Repairable

In the unlikely case of damage to the surface, it is possible to repair it using a special Kit.

FINISHES

The Element series has different GLOSSY and MATT finishes, giving the series countless possibilities and advantages.

SUSTAINABILITY

DESIGN

DURABILITY

VARIETY

SAFETY

The On Top installation gives the washbasin the greatest prominence, and is very easy to install and combine with different countertop materials. Placing the focus on the countertop is a commitment to following bathroom and decorative trends.

ON TOP

37 x 37 cm · 11,7h
Depth: 9,5 cm

45 x 38 cm · 11,7h
Depth: 9,5 cm

Ø40 cm · 11,7h
Depth: 9,5 cm

48 x 38 cm · 10,7h
Depth: 8,5 cm

Ø42 cm · 16h
Depth: 13,6 cm

SEMI-RECESSED

The Semi-recessed washbasin option allows the combination of contrasts with countertops, offering the opportunity to create eye-catching and unique combinations. It is one of the boldest options, bringing character and personality to spaces.

37 x 37 cm · 12,2h
