KRION SHELL®

KRION SHELL®

Krion Shell® is an Engineered Mineral Composite developed in-house by Krion. It consists of two parts: a structural inner core, made primarily of minerals (dolomite) with an eco-friendly resin binder, and a solid uniform outer surface made of mineral materials (ATH) and resins.

3/4 MINERALS

Most of the inner core of Krion Shell® is made of minerals (dolomite) found in abundance on the planet.

1/4 ECO-FRIENDLY RESINS

To bind the minerals, an eco-friendly resin is used, made of waste plastic. By using recycled PET plastics, waste materials are given a new life and a circular economy is promoted in the creation of Krion Shell®, minimizing the consumption of the planet's resources.

SCS Global Service, a leading North-American independent environmental certification agency, verifies and guarantees that all certified products made of Krion Shell® contain at least 5% recycled waste plastic in their composition, hence contributing to more sustainable, environmentally-friendly manufacturing processes.

At least 5% waste plastic is used in its total composition

Material origin

75% of its composition is mineral.

Sustainability

Not only does it contain a minimum of up to 5% recycled material; it is a resistant, durable product with a long life cycle.

Resistance to impact

Krion Shell® is capable of incredible resistance to common impacts in a bathroom.

Resistance to staining

Its zero-porosity makes it more resistant to stains, including those which have remained for a long time.

Safe

Krion Shell® is tested under strict trials which certify that it is a safe product, free of dangerous components.

Easy cleaning

Its easy cleaning allows time and the use of cleaning products to be reduced.

Repairable

In the unlikely case of damage to the surface, it is possible to repair it using a special Kit.

ONE CUSTOM

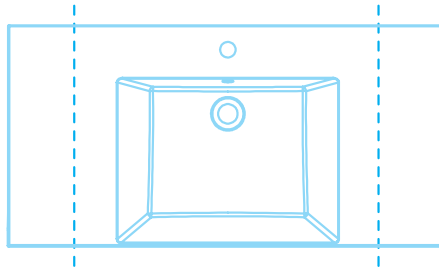

ADAPTABLE TO ANY SPACE

We have created the first countertop that is fully adapted to the client. ONE CUSTOM can be cut to adapt to any space, including in difficult areas, where there are pillars or walls with different angles.

Two finishes: gloss and matte. Available with one and two basins in the indicated formats. Additionally, there is the option of an overflow in stainless steel and black.

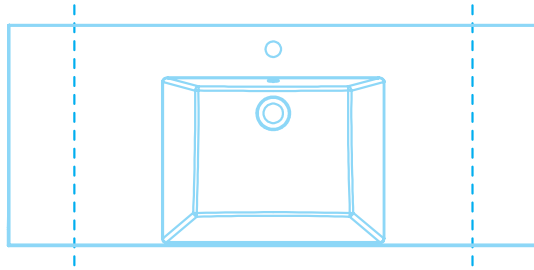

Adaptable up to a maximum of 15cm on each side

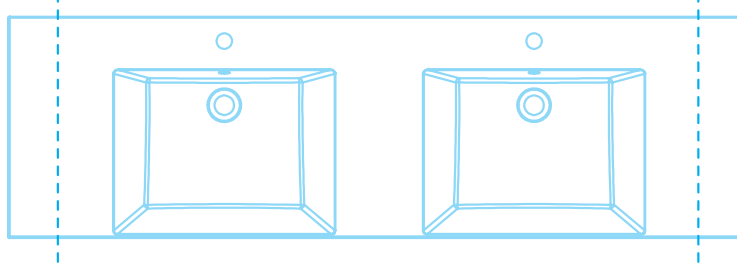

70 - 100 cm x 50 cm
Depth: 11,4 cm

Adaptable up to a maximum of 10cm on each side

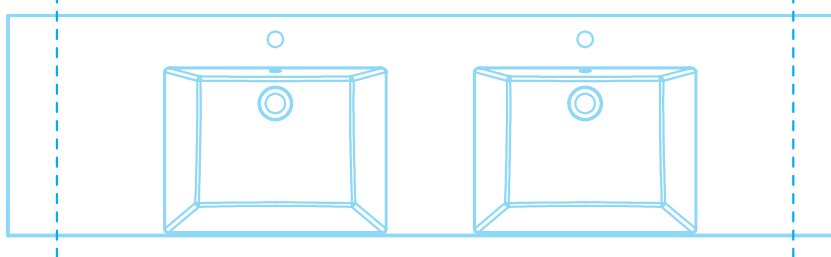

100 - 120 cm x 50 cm
Depth: 11,4 cm

Adaptable up to a maximum of 15cm on each side

120 - 150 cm x 50 cm
Depth: 11,4 cm

Adaptable up to a maximum of 15cm on each side

150 - 180 cm x 50 cm
Depth: 11,4 cm

ACCESSORIES

The ONE collection is complemented by a series of accessories.

TOWEL RAIL / SHELF

A towel rail designed for installation next to the mirror in black and stainless steel finish. Suitable for both positions.

Towel rails

92 cm

110 cm

Mirror

100 x 35 cm

MIRROR

A mirror which incorporates lighting on its edge, allowing the largest spaces to be illuminated.

TOWEL RAIL

A towel rail designed for installation next to the countertop, in black and stainless steel finish.

Towel rails

120 - 150 cm

61 cm
