KRION SHELL®

KRION SHELL®

Krion Shell® is an Engineered Mineral Composite developed in-house by Krion. It consists of two parts: a structural inner core, made primarily of minerals (dolomite) with an eco-friendly resin binder, and a solid uniform outer surface made of mineral materials (ATH) and resins.

3/4 MINERALS

Most of the inner core of Krion Shell® is made of minerals (dolomite) found in abundance on the planet.

1/4 ECO-FRIENDLY RESINS

To bind the minerals, an eco-friendly resin is used, made of waste plastic. By using recycled PET plastics, waste materials are given a new life and a circular economy is promoted in the creation of Krion Shell®, minimizing the consumption of the planet's resources.

SCS Global Service, a leading North-American independent environmental certification agency, verifies and guarantees that all certified products made of Krion Shell® contain at least 5% recycled waste plastic in their composition, hence contributing to more sustainable, environmentally-friendly manufacturing processes.

At least 5% waste plastic is used in its total composition

Material origin

75% of its composition is mineral.

Sustainability

Not only does it contain a minimum of up to 5% recycled material; it is a resistant, durable product with a long life cycle.

Resistance to impact

Krion Shell® is capable of incredible resistance to common impacts in a bathroom.

Resistance to staining

Its zero-porosity makes it more resistant to stains, including those which have remained for a long time.

Safe

Krion Shell® is tested under strict trials which certify that it is a safe product, free of dangerous components.

Easy cleaning

Its easy cleaning allows time and the use of cleaning products to be reduced.

Repairable

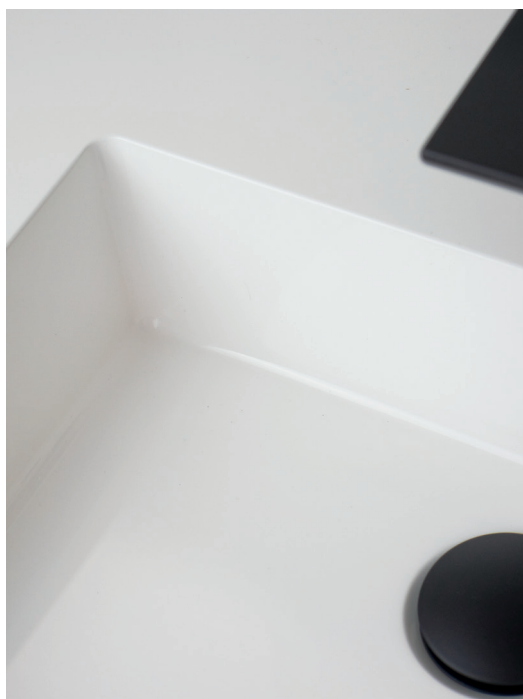

In the unlikely case of damage to the surface, it is possible to repair it using a special Kit.

SPIRIT

Minimalist worktop with integrated washbasin made with Krion Shell® technology, guaranteeing excellent quality and durability.

The series is completed with a frame with a black finish and a white lacquered wood shelf.

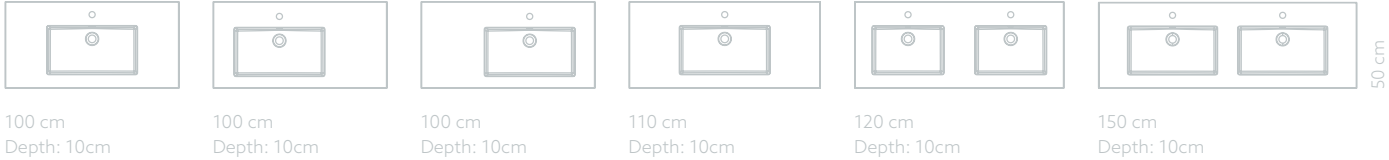

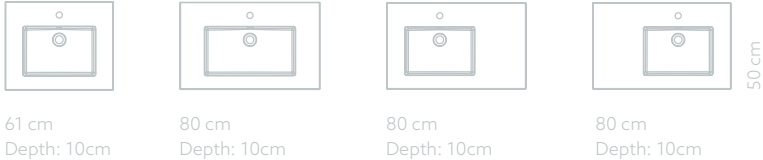

WORKTOPS

The Spirit worktops are available in the following formats: 61cm; 80cm and 100cm with washbasin on the left, right, or centred; 110cm; 120cm; and 150cm. The last two ones with double sink.

Their 15mm thickness offers a lightweight sensation.

We can find all these formats in white, gloss and matte finishes. Chrome overflow included, with possibility in black as an extra.

FRAME UNIT

The Spirit series has a free-standing structure available in matte black. It has a lower shelf in white lacquer which increases the storage capacity of the bathroom.

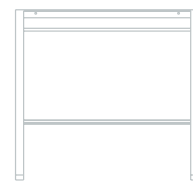

Ideal for hotels or bathrooms where extra space is required.
